Sir

There having been a Deficiency of Six Garse and one hundred & seventy three Mercalls of Rice in the Cargo of the Prince Henry Packet from Mazulipatam, We called upon Captain Reynolds to make good the Amount Who alledges in his defence that the Rice was weighed with Dutch Weights that it was afterwards carried to the Open Beach, where it remained for a fortnight under the care of the Conicoplys & other Persons on Shore, without being delivered to him, for which Reasons he refused to Sign the Bills of Lading any further than for the Number of Bags he received, without specifying the Weight Agreeable to Your Invoice the Bags should weigh one hundred & sixty Pounds Each, but when landed here they Poized no more than from one hundred & two to one hundred and twelve Pounds. As most of the Bags [. . .] turn it down above six inches and sewed there is great reason [. . .] must have happened at your Place [. . .] the Weights Enquire into this Abuse & give the Necessary directions the Gentlemen whose charge the Exporting Grain is immediately under, to act with greater circumspection in future.

HONBLE SIR & SIRS

Your Favor of the 26th. December reach'd us the 9th. Ultimo to which we shall now Reply.

Your Honor &c^{a}. are Pleased to Remark in Answer to that Part of our Letter of the 15th. October last which Related to the Ship Protector, that you are of Opinion it will be far more regular to bring her Charges to Account on our Books than on Yours, as she has been for the most Part Employed in our immediate service; We agree with you that it is altogether immaterial with respect to Our Honble Employers, on which Books her expences appear, and therefore now propose to you as the most proper Method to avoid all Confusion to [debit this Presidency and] the whole amount of her charges, so that [she may not be dis]continued on our Establishment.

We would very willingly have confirmed Captain Nesbitt in the Command of the Fort Marlbro' Schooner in Consequence of your Recommendation but he Requested our Permission to Resign.

Inclosed We transmit you an account shewing the difference between the Pay issued to the Kings and Companys Troops, & the Gratuity made to the former, together with all the Extraordinary allowances to Officers attested by Our Military Paymaster, which we hope will prove sufficiently authentick.

We wrote in General terms concerning the Timber and Plank we desired might be provided for the Shaftesbury, as all sorts would prove very acceptable, but our Immediate Intention was for your Honor &c^{a}. to Embrace this Oppertunity of sending round the Timber & Planks long since purchased at Calicutt on our Account.

We have found it necessary to alter the destination of the Oxford, and propose to send her first to Manilha there to Deliver a Cargoe for that Place, taken on board her on Freight After which she is to proceed to China with what money the concerned in the voyage to Manilha can furnish, which is to be consigned to the Supra Cargoes in China on account of the Company and the Amount repaid here.

The Shaftesbury is daily expected from the Malabar Coast As her Charter Party will expire the end of this month, We esteem her the properest Vessell to be sent to Europe and shall accordingly after having put on board the Cargoe Laden by your Honour &ca. on the Oxford and Compleated the Shaftesburys Tonnage finally Dispatched her from hence.

The President and Council of Bombay have Consigned to us a Parcell of Gold Dust the produce whereof the desire may be appropriated to the Purchase of Dollars, to be forwarded by such ships as we shall think proper, to the supra cargoes residing at Canton in part of the ship Griffins stocks for the produce of which Consignment of Gold dust, they request, we will give Captain John Edwards of the Boneta Ketch, Bills on your Honour &ca. concerning which they will write you they have also desired us to Advice them of the amount of such Bills, that they may give your Presidency due credit for the same.

As soon as we [. . .] we shall draw bills on you for the amount.

TO MESS^{RS}. THOMAS LOCKWOOD, RICHARD WOODS, STEPHEN DEVISME, FRANCIS KINNERSLEY, FRANCIS WOOD, JAMES FLINT, THOMAS THOMAS, ALEXANDER HUME AND JOSEPH HARRINGTON Supra Cargoes of Council at CANTON.

GENTLEMEN

We have received your favour of the 4th. November Last, Advising us of the safe arrival of the Prince of Wales, Brittania Tilbury, Rhoda & Essex in China and of the Departure of the Pitt from thence—Our Letter of the 7th. September informed you that M^{r}. Pocock, had dismissed the Oxford Denham & Pocock but the Season being too farr advanced to Dispatch them to you we intended to send them to Bengal together with the Shaftesbury.

The Admiral Afterwards on his arrival here desired that the Pocock might attend the Squadron to Bombay in Quality of a Storeship and We complied with his request she returned the 2^{d}. Instant and [we] shall [. . .] her to you.

The Denham [. . .]the former we hear proceeded to the West Coast to take in the Surplus pepper on hand there and from thence to go to Europe the Oxford returned hither the 26th. Day of March with half a Cargoe for

Europe but being then too late to dispatch her and on opportunity Offering of sending her to Manilha in her way to China, on Terms Beneficial to the Company we thought it most prudent to Embrace it and to wave [*sic*] her Europe Voyage we have accordingly Given Orders to Captain Webber to Touch at Manilha there to deliver a Cargoe put on Board here for that Market on Freight and the Persons Concerned in the Voyage have agreed with us to Ship on Board the Oxford at Manilha in Dollars the Outturn of the Cargoe which we have reason to Believe will be Twenty Thousand Pounds or upwards and to consign the same to you for the use of the Company upon condition we will repay the amount here, dollar for dollars after deduction of Freight by these means the Ships Demurrage will be eased, And you Gentlemen at the same time furnished with Money and Before Advice Arrives of the Consignment having been made, We hope to receive Ample Supplys from Europe when we shall be in a Condition, to reimburse the sum which may be advanced by the Freighters this is the only Expedient we could fall upon to procure a stock for you for so Great is our present want of Cash, the Remittances from Bengall having fallen very Short of our expectation, and the Presidency, of Bombay having Contributed but little to our Assistance that we have lately been Obliged to make use of the 32 Chests of Treasure landed from the Shaftesbury, and also to appropriate the Gold Dust sent from Bombay in order to be coined here and the value forward^{d}. to you in Dollars in part of the Ship Griffins stock, to the defraying [of] expenses on the [coasts] which from the Maintenance of [. . .] Army as we have been under the Necessity to support, prove extreamly heavy it is with Great Reluctance we have been Compelled to this step being very sensible of the Great Advantage the Company must necessarily reap by having a Considerable fund in China and nothing but the Exigencey of our Affairs should have forced us to it.

The Shaftsbury having suffered Greatly in her Hull by the Shott from the Burmahs the time the [*sic*] Committed the Massacre at our settlement of the Negrais (to which Place she went from Vizagapatam refit) we sent her to Bombay to be repaired, and her return is daily Expected as her Charter Party will expire the end of this month we esteem her the Properest Vessell to be sent to Europe, And we accordingly purpose after having put on Board the Cargoe Laden at Bengal On the Oxford, And Compleated the Shaftesburys Tonnage, to Dispatch her finally from hence.

You may Depend on our Giving as early a Dispatch as possible to the Ships of this season, destined for China and we shall pay due Attention to Your request in having two or three of the Coast & Bay ships consigned to You provided the [*sic*] Cannot Be furnished with proper cargoes here or at Bengall We Observe the Remark you make concerning the Great Embarrassment Passengers Going by way of China are apt to Cause, and wish we cou'd find out any Method to prevent it But we really at Present Cannot think of any likely to prove Effectual very few oppertunities offering for persons to take their Passage for Europe from hence Many people are even against their Inclinations obliged to Make the Tour of China in order to be accomodated on ships bound home from thence; and surely it would be a particular hardship on them to have Obstacles thrown in their way [. . .] is with no sinister view [. . .] By this Conveyance we Consign to you one hundred Candies of Redwood amounting to Pag^{s}. 341–31–58 as ℔ Invoice, and Bill of Lading inclosed; Tin is so very dear here that we have no Encouragement to send you any.

The sum you were pleased to Advance M^{r}. Dalrymple shall be duely brought to Account.

The Companys Affairs on this Coast have taken a very favourable turn; Our Army on the 22^{d}. January Last defeated that of the French and since Karicall, Alamparva with most of their Country Garrisons have fallen into our Possession; The French have retreated within three miles of Pondicherry where they are surrounded by our Troops by Land And Rear Admiral Stevens with e n Ships of the Line & who will soon be joined by two more from

Bombay has formed a Line of Blockade, by sea so that all succours are cutt off; If our Reinforcements this year are any ways Considerable, and the French Fleet not superior to Mr. Stevens we make no Doubt but that Pondicherry will fall.

TO ANY OF THE HONBLE COMPANYS SERVANTS THAT MAY BE FOUND RESIDING ON THE WEST COAST.

We have received the Disagreeable advice Both from Mr. Priston at Moco Moco and Mr. Norris who was at Croe of the certain Loss of Fort Marlbro and that all the other settlements on the West Coast [. . .] to be in the hands of the French who it is most probable wou'd carry the Companys people all off from the Place which it is reasonable to Judge wou'd be abandon'd when the Enemy had done what mischief they were able; However we have thought proper to Order Captn. Baker in the London Schooner to call upon the Coast at the Most safe place that he may Obtain Intelligence if the Enemy is gone and in what Condition the Honble Companys Settlements are left, that in case it should happen, any remain in our possession where some of the Companys servants not fallen into the hands of the French should still reside. He may go there to Learn their situation and afford all the assistance he can by taking on Board his Vessell you and all the Companys & Your Own Effects which he may have room for, if you are under the apprehension either of being distress'd or Unable to keep the place you are in with safety which we are very sorry to find the cruel and Treacherous Behaviour of the Malays reported to us has Given too much room to Doubt of. We therefore hope if any of the Companys people yet Remain on the West Coast in Dangerous Circumstances Capt. Baker May Relieve them and bring them to this Coast to wait till Opportunity Offers for us to Reestablish the Companys possession on the Island of Sumatra with Security. Wherefore when you leave the shore you should cause the English Colours to be fixed there and signify to the Inhabitants that tho' you quit the place it is only to bring a Sufficient force to maintain the Company's Right [to it which you assert] by fixing their standard.

We wish that the West Coast Treasure put on Board the Suffolk And Valentine may arrive safe at Canton as it must necessarily prove a very Welcome Supply; And which added to the Stocks of those Ships & the Money to be Consigned thither from Manilha will furnish the Supracargoes with the means of Procuring Cargoes for their Ships, at least we are the more induced to hope so, as we have been Obliged to apropriate the Gold dust sent by you to the Defraying of our expences on the Coast which from the Maintenance of so Numerous an Army as we are under the Necessity to support fall Extreamly heavy; It is with Great reluctance we have been Compelled to this Step And Nothing but the Exigency of our Affairs should have forced us to it.

To the Honble Companys Supracargoes
on Board the Ship Norfolk & Duke of Richmond.

Gentlemen,

The Settlement of Fort Marlbrō & most of its Dependencies having fallen into the Hands of the French we find Ourselves under the Necessity of Ordering Captain Benjamin Godfrey of the Duke of Richmond one of the Ships Consigned to the Gentlemen of the same Commission with you to repair hither which we now signifie to him.

By Advices received from Mr. John Herbert our Resident at Batavia we learn that the Deputy Governour & Council at Fort Marlbro [foreseeing] the [Danger] that place was in had sent all their Treasure to Batavia with Orders to him to Consign it to the Resident supracargoes at Canton. He will inform you that he has laden Nineteen Chests on the Suffolk and the like Quantity on the Valentine Agreeable to those Orders.

The Oxford which sailed for Manilha in the month of May last in freight is After landing her Cargoe to proceed to China; The Persons Concerned in the Voyage have Agreed with us to ship on Board at Manilha in dollars the Outturn of the Cargoe, which we imagine will be Eighty Thousand or upwards and to consign the same to the supracargoes in China for the use of the Company upon Condition that we will repay the Amount here Dollar for Dollar, after deduction of Freight; These large sums we hope will not only serve to Compleat the Tonnage of the last years shipping but likewise go some way Towards procuring Cargoes for those of this season, that Consideration therefore Added to our Necessitous Circumstances, together with the present Alteration of the Duke of Richmonds Voyage induce us how to apply to You for the whole of the Treasure put on board that ship and we flatter ourselves you will not hesitate in Complying with Our request, when you are Informed that the present Exigencey of our affairs demands all possible assistance with regard to supplys of Cash.

We purpose to send the Duke of Richmond to China early next season, and hope to furnish you with Treasure sufficient to procure a [whole cargoe] for her.

RESIDENT AT BATAVIA.

SIR

The Pocock snow which imported here the 3d. Instant brought us your letter of the 7th. April the enclosed Papers turned out Agreeable to the list sent therewith.

Upon reference to the Contract made Between the Commander of that Vessell and you we find the terms altogether unreasonable, such indeed as you should on no account have entered into, we cannot therefore but highly disaprove of your conduct in that affair for altho you might have been Ordered by the Deputy Govr. and Council at Fort Marlborough to dispatch their Packet hither with expedition it never Could have been their intention that the Company should be put to so heavy a charge for such advice and therefore you ought to have waited untill another opportunity offered, The Power Vested in You as Resident must not be deemed sufficient to warrant or authorize you to act in such an Extravagant manner, and you must in future in all proceedings where the Companys Interest is Concerned have the strictest Eye to Frugality.

The Owners of the Pocock had a full Cargoe on Board their Vessell which they Brought hither tho she was hired at so large a Freight they requiring such an immoderate sum for the service of only conveying the Packet carries with it a most pitifull mercenary appearance; We accordingly propose to Charge the highest Freight Possible on the Cargoe brought on her in order to indemnify our Employers [as much as lies in our] Power after the imprudent step you have taken.

As it will be necessary for us to have some persons Residing at Batavia we wou'd have you Continue there.

We have sent Orders to Captain Benjamin Godfrey of the Duke of Richmond to repair hither from Batavia and to Bring, Assisted by the Duke now dispatched to you the Treasure Military and Stores Consigned to Fort Marlborough; should these ships not be sufficient to take all the stores on Board, we have directed Captain Bonham to leave the surplus with you which you are to send us in freight as Opportunitys offer.

The Honble Companys ship Duke having On Board the salt formerly intended for the use of the Use of the West Coast we desire you will Dispose thereof to the Best Advantage.

Our last letter to You was under date the 14th. Instant Duplicate whereof we now Inclose.

We also transmit you agreeable to the Order of the Honble Court of Directors Extract of their General Letter to Us by his Majestys ship Norfolk dated 23d. November 1759. Relative to Mr. Robert Orme.

We were extreamly surprized upon an examination of the Planks sent Us from Calicut on the Shaftesbury to find that only four hundred and ninety Eight had been put on Board and those Scarce fit for use; As we had reason to expect a large supply of Timber and Plank from thence our Disapointment proved the Greater Mr. Huet who went from Tellicherry to Calicut purposely to Dispatch the Shaftesbury in his Letter of the 5th. of May advises us that he had Consigned to us as many Planks as the Commander Could take on board upon our demanding of Captain Inglis his reasons for not bringing more he Aledged, that finding the Weather began to breake he told Mr. Huet it would not be safe to keep the ship On that Coast any longer, more Especially as the Plank intended to be sent was so bad that it could be of little or no use Consequently did not deserve staying any longer for Whereupon the Ship was dispatched. By Vessells which have imported here from Calicut we learn that there is a Considerable Quantity both of Timber & Plank lying there Belonging to the Company and of a Good Quality if so we request Your Honr. &ct. will Enquire how we came to be so badly served and at a Time too when we stood so much in need of those Articles.

On the 2d. Instant we received the Europe Packet by the Syren which those Gentlemen dispatched to us.

We now forward to You a Packet from the chief And Factors at Anjengo which Arrived with us the 27 Ultimo.

Gentlemen

The Pocock which ship sailed from hence the 14th. June Carried you a Letter of the 12th. of that Month Duplicate whereof is Now Inclosed.

We have the pleasure to Acquaint you that the Onslow imported here the 26th. July. The Princess Augusta and Warwick the 9th. Carnarvan and Lord Mansfield the 10th. and Falmouth the 12th. Instant.

The Princess Augusta Carnarvan And Warwick being Destined for China we now dispatch them to you. We have on our part used all possible expedition in taking out their stores intended for this Settlement. And we hope they will all save their Passages; By a Letter we have received from our Honble Employers under date the 15th. February last we are informed that the stock of these three ships are on Board the Norfolk & Duke of Richmond we shall be sincerely Glad to hear of the safe Arrival of those last mentioned ships with you, since their Consignments of Treasure are so very considerable But we Cannot at the same time help declaring that we are under no small apprehensions on their account since by Being ordered to the West Coast it is most probable they will fall in with the two French ships which lately reduced our settlements there, and which it is Generally imagined are still on their Cruize; however should they unexpectedly avoid them & reach China we make no Doubt but you will then have a Fund sufficient to enable you to procure

proper Cargoes for all the ships, We mean with the addition of the Oxford's money and the Treasure forwarded to you from Batavia on the Valentine and Suffolk.

We have been able to Get but little Redwood. The whole sent on those ships Amount to ca. 193–6–8 m. lb. As ℔ Invoices and Bills of Lading inclosed several Private persons having of late Contracted with the Redwood Merchants to supply them with Quantitys of that Article for the China Market much to the Detriment of the Company We purpose in future to Prohibit the Exportation thereof We shall by this means have it in our power to purchase all that may be Brought to this Market for the Company and to furnish you Gentlemn. With A Sufficiency.

The Great Number of French Prisoners here proving not only very Inconvenient but Likewise dangerous, we are therefore using our Endeavours to Get rid of them in the Best manner we can Two Officers now accordingly proceed on each of these ships And we Request of You to distribute them on Board such of the homeward Bound Ships as you shall esteem most Convenient; A Regard to our own safety has Compelled us to this Measure otherwise we wou'd not have troubled you with those People.

We have Advice that the Pitt from China & the Warren from this Place Arrived at Kinsale the former the 23d. and the Latter the 24th. February.

The Ajax Captain Lindsey was finally dispatched from hence for Europe the 8th. Instant.

Our Affairs on this Coast continue nearly in the same state, as when we last wrote to you. The French still Remain under their Guns our Army round them, and their Communication by Sea entirely stopt up by the Fleet under the Command of Rear Admiral [Stevens] We are in Daily Expectation of being reinforced and we hope in such a manner as to enable us when a proper opportunity shall Offer to lay siege to Pondicherry.

Honble Sir & Sirs

We have duely received your several favors of the 19th. October & 6th. & 20th. Ultimo to which we shall now reply.

Nothing but the most urgent necessity should have induced us to deprive you of such parts of the Military Stores as were Landed here, Originally designed for your Settlement; Our intended attack on Pondicherry will we hope evince we had some reason for so doing. We observe the manner in which

Your Hon^{r}. &c^{t}. have been pleased to fix the destination of the several ships and immediately Gave Orders on receipt of your Letter of the 6th. November for thirty Tuns of Redwood to be split for the Onslow Your last letter however mentions your having procured a sufficient quantity for her, you may depend upon our using our utmost Endeavours to supply you as Amply as Possible with this Article for to Compleat the Tonnage of your next Years Shipping.

The different supplys of Money with which your Hon^{r}. &c^{t}. have lately furnish^{d}. us & the advice you are pleased to Give us of your intention to send more if Possible deserve our particular attention We return you many thanks for such Marks of your readiness to assist us and hope the Company's affairs will soon feel the Good Effects of it.

You will be informed from the Select Committee of the Destination of the Fort William Schooner.

The Falmouth is at present taking in Stores for the seige when the Prince Edward arrives we shall be able to Judge in what manner she can be Best employed.

We have presented M^{r}. Brohiers Bill on M^{r}. Call for acceptance which has been of [. . .] the time limited for payment expires we shall [. . .] Protested and shall thence [. . .] We observe what you write of Your intention to send 50 chests of Opium for the West Coast on the Leopard which you Purpose should touch here about the 20th. of this month to take on Board a proper person to have charge of Disposeing of it for the Company and we will take care to provide for the same but we must remark to you that we understand the Meaning of the Company in taking this article into their hands to have been principaly to defray the charge of their settlements at Nattal and Tappanooley and to that end we are told it was proposed to have opium sold on their Exclusive account. But not to such people who had the care of Cultivating pepper for amongst them was it once introduced it would be so far from Being a means of Leading them to preserve their Plantations that it wou'd be a sure method of corrupting their manners & involving them in Vice to the sure destruction of their Gardens and for which Reason it has always been a Rule to prohibit pepper Planters from the use of this Pernicious drug leaving it only to those whose avocations were less liable to be insured by it or indeed whose service we have no occasion for to such therefore we may order your Cargoe to be sold which will serve to show we preserve a Commerce with that Coast and at the same time Instructions shall be Given [to the Leading] Men at our Settlements, shall be assured [. . . .] of soon [. . .] to reestablish them and [. . .] use their authority to oblige the pepper Planters to keep their Gardens in order not by the Distribution of Opium but by promise of the advantage they will receive from the pepper they may have ready to supply these ships we may be able to send thither and endeavours shall be used to prevail on the natives to provide such Materials as may be necessary to rebuild what the French may have destroyed for the above purposes We therefore think the stock of opium you put on Board the Leopard will be full sufficient without encouraging private Traders to export any for that market more especially as a quantity is lately Gone from hence which with what you send is as much as can be needfull for the present and more would not only impede the Companys Interest but distress those who may hereafter be appointed to settle there.

Our last address bore date the 13^th^. September since when we have been favor'd with your letter of the 24^th^. October.

The Packet from the Court of Directors addressed to Your Hon^r^. &c^t^. & mentioned in M^r^. Secretary James Letter to have been sent hither in the Onslow, we imagine was enclosed in a Packet directed to the Chief and Factors at Anjengo which we duely forwarded.
